

The consulting unit of the msg group on cyber security and data protection, msg security advisors, is seeking you as:

Lead Consultant / Manager Cyber Security (m/f/d)

Full-/Part-time | Reference number: msg-50392983-000

For the following locations: Frankfurt/M., Berlin, Braunschweig, Chemnitz, Düsseldorf, Essen, Görlitz, Hamburg, Hannover, Ingolstadt, Karlsruhe, Cologne, Lingen (Ems), Munich, Münster, Nuremberg, Passau, Schortens, St Georgen, Stuttgart, Wolfsburg and throughout Germany

Are you looking to take on challenging tasks in varied projects with social relevance in the field of information security? In our Security Advisors unit, we increase the resilience of organizations, processes and systems with innovative and solution-oriented consulting, thereby creating professional information security for excellent organizations. In our unit, you can shape things, grow personally and set standards.

Who we are

msg is an independent group of companies with more than 10,000 employees worldwide. We owe our distinguished reputation to our holistic range of services consisting of creative strategic consulting and intelligent, sustainable value-adding IT solutions for a variety of industries.

What you can expect from us

- You will work in motivated and highly qualified teams on exciting projects in information security
- You are the main contact person at the customer, support and advise on the design, introduction and implementation of secure processes according to ISO 27001 or BSI (German Federal Office for Information Security) standards in regulated areas
- You continuously contribute your experience to the further development of our consulting methods
- You advise our customers on the selection and planning of their system landscape and coach them during implementation
- As an experienced project manager, you play a decisive role in determining the success of projects and further expand our excellent customer relationships
- You substantially support us with your expertise in bidding processes for tenders and projects

What you offer

- Technical college/university degree (computer science, business administration, natural sciences) with good to very good grades
- At least 5 years of experience as well as several years of proven project experience in the field of security consulting, security analyses and auditing
- Broad-based knowledge of security products, solutions and deployment scenarios
- Very good knowledge of security standards (IT basic protection catalogs, BSI 200-x and ISO2700x, ISF, Cobit or similar)
- Very good knowledge of relevant laws and regulations (e.g., EU-GDPR, BDSG, KRITIS)

What we offer

- Home office and mobile working
- Flexible working hours
- Time recording on a trust basis
- 30 days of vacation and special leave days
- Long-term accounts / sabbatical
- Fixed remuneration with variable component
- Free choice of location
- Minimum travel
- Comprehensive further training

This is your way to us

Interested? Then we look forward to receiving your application with salary requirements and possible starting date via security-advisors.msg.group/en/career.
