In our Security Advisors unit, we increase the resilience of organizations, processes and systems with innovative and solution-oriented consulting, thereby creating professional information security for excellent organizations. In our unit, you can shape things, grow personally and set standards..

### Who we are

msg is an independent group of companies with more than 10,000 employees worldwide. We owe our distinguished reputation to our holistic range of services consisting of creative strategic consulting and intelligent, sustainable value-adding IT solutions for a variety of industries.

### What you can expect from us

- Collaboration in motivated and highly qualified teams on exciting data protection projects with clients from the private and public sectors
- Realization of data protection management systems for our customers
- Advising our customers on the selection and planning of measures to implement the General Data Protection Regulation, the German Federal Data Protection Act and corresponding state laws
- Preparation of data protection analyses, concepts and other data protection documentation
- Integration of data protection into system landscapes in cooperation with information security specialists
- Assumption of the mandate of the external data protection officer for our customers
- Support of bidding processes for data protection projects

### What you offer

- Technical college/university degree (computer science, business administration, natural sciences, law)
- Relevant experience in the implementation of data protection requirements and in the application of recommended procedures such as the standard data protection model or the ISO 27701
- Skills in the creation of guidelines and process descriptions for data protection
- Ability to interpret and implement data protection legislation in a practical manner, taking into account the requirements of other management systems (ISM, BCM, RM)
- Ability to develop appropriate solutions with different stakeholders of our customers using a participatory approach

#### What we offer

- Home office and mobile working
- Flexible working hours
- Time recording on a trust basis
- Overtime compensation
- 30 days of vacation and special leave days
- Long-term accounts / sabbatical
- Fixed remuneration with variable component
- Free choice of location
- Minimum travel
- Comprehensive further training

#### This is your way to us

Interested? Then we look forward to receiving your application with salary requirements and possible starting date via [security-advisors.msg.group/en/career](https://security-advisors.msg.group/en/career).
